

# Screen Saver

The Screen Saver starter kit is included with Visual Basic 2005. It is a Windows screen saver application that displays a sequence of images. The images can be images from a specified directory or default images. The images are overlaid with text from a live Internet RSS (Really Simple Syndication) feed.

1. Start Visual Basic 2005.
2. Select File → New Project. A dialog box is displayed. Select Screen Saver Starter Kit:

3. Select OK. The Microsoft Visual Basic Starter Kit window is displayed.
4. The Microsoft Visual Basic Starter Kit contains a tutorial on how to use, modify, and customize the Screen Saver application. Work through the tutorial. You may want to the print the instructions.
